

**Deutscher Kongress
für Orthopädie und Unfallchirurgie**

Orthopaedics and Traumatology International

Wednesday, October 21, 2009

Saal 8

11:00 – 12:30 **Controversies in joint preserving hip surgery**
EFORT-Forum

Chairpersons: *Günther K. (Dresden), Puhl W. (Oberstdorf)*

Opening of the EFORT-Forum
Günther K. (Dresden), Puhl W. (Oberstdorf)

Pathomorphology in DDH versus FAI: The problems
Zagra L. (Milano)

Surgical approach to pelvic osteotomy: Classic approach
Siebenrock K. (Bern)

Surgical approach to pelvic osteotomy: Less invasive
approach
Soballe K. (Aarhus C)

Discussion

Approach to offset reconstruction: Surgical dislocation
Ganz R. (Gümligen)

Approach to offset reconstruction: Arthroscopy
Villar R. (Cambridge)

Discussion

Summary of the EFORT-Forum
Günther K. (Dresden)

Thursday, October 22, 2009

Saal 8

09:30 – 11:00 **Outcome of hip and pelvic fractures**
Combined session of EFORT and ESTES

Chairpersons: *Rommens P. (Mainz), Thorngren K. (Lund)*

Outcome in adults after femoral neck fractures
Thorngren K. (Lund)

Outcome in adults after acetabular fractures
Rommens P. (Mainz)

Outcome in adults after pelvic fractures
Cimerman M. (Ljubljana)

Outcome in adults after associated severe soft tissue
trauma
Vécsei V. (Wien)

Complications after proximal femur fractures in children and
adolescents
Bartonicek J. (Praha)

Outcome in children and adolescents after pelvic
fractures
Cassiano Neves M. (Lisbon)

14:30 – 16:00 **Severe pelvic bleeding**
ESTES-Forum

Chairpersons: *Rommens P. (Mainz), Vécsei V. (Wien)*

Principles of acute management
Rommens P. (Mainz)

The role of external fixation
Vécsei V. (Wien)

The role of internal fixation
Varga E. (Szeged)

Principles of soft tissue management
Leenen L. (Utrecht)

Functional outcomes incl. neurology
Hessmann M. (Fulda)

Round Table

Friday, October 23, 2009

Saal 8

09:30 – 11:00 **Hip Resurfacing: Current trends**

and perspectives I

Combined session British Orthopaedic Association (BOA) and DGOOC

Chairpersons: *Kay P. (Wigan, Lancashire), Wirtz D. (Bonn)*

Good or bad news from Hip Registries and long-term studies?

Porter M. (Wigan, Lancashire)

What can we learn from failure analysis and retrievals?

Hart A. (London)

Metal-on-metal: Update on serum-ions and ALVAL-debate

Skinner J. (Stanmore, Middlesex)

Is there real evidence for better function and patient satisfaction in resurfacing?

Gerdesmeyer L. (Kiel)

Can navigation improve the results?

Stiehler M. (Dresden)

11:30 – 12:30

Hip Resurfacing: Current trends and perspectives II

Combined session British Orthopaedic Association (BOA) and DGOOC

Chairpersons:

Hart A. (London), Reichel H. (Ulm)

The young and active patient: Should resurfacing be the choice?
- Pro surface replacement

Hersche O. (Zürich)

The young and active patient: Should resurfacing be the choice?
- Pro conventional THR

Kay P. (Wigan, Lancashire)

Round table discussion with all speakers

14:30 – 16:00

Management of osteoporotic fractures

Combined session British Trauma Society (BTS) and DGU

Chairpersons:

Haas N. (Berlin), Matthews S. (Oxford)

Proximal humerus

Südkamp N. (Freiburg)

Elbow

Britten S. (Leeds)

Proximal femur

Matthews S. (Oxford)

Distal femur

Matthews S. (Oxford)

Tibial head

Haas N. (Berlin)

Pilon and ankle

Zwipp H. (Dresden)

16:30 – 18:00

Complex foot and ankle trauma: primary and secondary reconstructions

Combined session of British Orthopaedic Foot & Ankle Society (BOFAS) and DGOU

Chairpersons:

Atkins R. (Bristol), Zwipp H. (Dresden)

Complex pilon and ankle fractures

Atkins R. (Bristol)

Severe talar fractures

Atkins R. (Bristol)

Open calcaneal fractures

Rammelt S. (Dresden)

Secondary pilon and ankle reconstruction

Marti R. (Amsterdam Zuidoost)

Secondary talar reconstruction

Zwipp H. (Dresden)

Secondary hindfoot reconstruction

Hamel J. (München)

Friday, October 23, 2009

Salon Koch

09:30 – 11:00

Long-term results of joint replacement

Annual Meeting of the German-Japanese Association

Chairpersons: *Josten C. (Leipzig), Maeda A. (Aobaku Yokohama)*

Fracture in the cross-link polyethylene liner used in total hip replacement: case report
Ishibashi Y. (Kurume City, Fukuoka-ken)

Utility of Leeds-Keio (LK) artificial ligament for prevention of recurrent dislocation after the total hip arthroplasty (THA)
Izumida R. (Tokyo)

Short-term clinical results and postoperative change of range of motion in total knee arthroplasty using P.F.C. Sigma RP-F
Asai S. (Yokohama)

Uncemented ceramic on ceramic arthroplasty for dysplastic osteoarthritis with Perthes-like deformity (Coxa plana and relative overgrowth of the greater Trochanter)
Munakata Y. (Tokyo)

Uncemented alumina on alumina bearing for dysplastic hips
Kusaba A. (Ebina Kanagawa)

The cement ESKA femoral neck prosthesis-short shank-GHE - an analysis of 380 surgeries
Ghanem M. (Leipzig)

Navigation methods for the optimization of implants femoral cap endoprosthesis
Böhling U. (Berlin)

11:30 – 12:30 **Future perspectives of joint replacement**
Annual Meeting of the German-Japanese Association

Chairpersons: *Hase H. (Kyoto), Zacher J. (Berlin)*

Bionic surface design of metal/metal- tribological pairing in hip endoprosthesis optimisation tribological characteristics
Böhling U. (Berlin)

The value of minimal invasive access paths
Halder A. (Sommerfeld)

Surface coating of hip implants - an update
Gollwitzer H. (München)

Metal implant allergy
Thomas P. (München)

14:30 – 16:00 **Spine: Trauma and degeneration**
Annual Meeting of the German-Japanese Association

Chairpersons: *Yoshida K. (Kurume City Fukuoka), Mittelmeier W. (Rostock)*

The clinical results of the new minimally invasive surgery (muscle-preserving interlaminar decompression: MILD) for lumbar spinal canal stenosis (LSCS)
Hase H. (Kyoto)

Operation technique: double door laminoplasty using hydroxyapatite spacers for CSM patients
Sha N. (Hyogo-ku Kobe)

Surgical results of lumbar spinal stenosis - outcomes and related clinical issues
Nagata K. (Kurume City, Fukuoka-ken)

The kyphoplasty as minimal invasive treatment of osteoporotic vertebral fractures - safety aspects and complications
Tschöke S. (Leipzig)

The ventral C1/C2-screwing on dens - fractures with respect to elderly people - a safe and low grade morbidity option
Josten C. (Leipzig)

Kyphoplasty - therapeutical option with respect to fractures caused by metastasis (thoracic- and lumbar spine)
Rohrbeck J. (Berlin)

Early stabilisation and decompression of spinal metastasis reduces the neurological risk - an analysis of 140 patients
Josten C. (Leipzig)

16:30 – 18:00 **Free topics**
Annual Meeting of the German-Japanese Association

Chairpersons: *Gollwitzer H. (München), Kusaba A. (Ebina Kanagawa)*

Serum chromium level after metal on metal total hip replacement
Maeda A. (Aobaku Yokohama)

Psoriasis vulgaris caused by ceramic insert used in total hip replacement
Higuchi F. (Kurume City, Fukuoka-ken)

Gene expression microarray analysis in lining synovial regions of rheumatoid arthritis by laser microdissection
Yoshida S. (Kurume City, Fukuoka-ken)

Three different treatments for olecranon fractures
Young-Mi C. (Ikeda-shi Osaka-fu)

Minimally invasive tension band wiring for olecranon fractures
Kato K. (Nagoya)

Salvage operation of scaphoid nonunion after surgical treatment hypothesis
Tanaka J. (Hyogo)

Evaluation of relationship between the thickness of the graft and clinical results in the anatomic ACL reconstruction
Takagi H. (Yokohama)

Complications and pitfalls of locking compression plate (LCP) fixation
Minehara H. (Kanagawa)

Clinical results of volar locking plate fixation for distal radius fractures using MIPO technique
Zenke Y. (Kitakyusyu City Fukuoka-ken)

Treatment for scaphoid fractures using a Herbert screw/headless bone screw through a minimal incision
Yoshida K. (Kurume City Fukuoka)

Treatment of the metacarpal fractures with percutaneous intramedullary fixation with K-wire
Yagura Y. (Furano Hokkaido)

The modified Ishiguro's procedure (percutaneous pinning) for the avulsion fracture at the base of the proximal phalanx
Mikami Y. (Miyoshi Hiroshima)

Current bio-mechanical analysis with respect to knee endoprosthesis with ceramic-condyle
Mittelman W. (Rostock)

Hospital mortality after elective total hip and total knee replacement - HELIOS hospital group experience
Zacher J. (Berlin)

Limited incision plating technique for clavicle shaft fractures
Al Muderis M. (Parramatta)

Clinical comparison of single-bundle and double-bundle anterior cruciate ligament reconstruction using hamstring tendons
Yasushi O. (Yamazaki Kamakura City)

Discussion

Saturday, October 24, 2009

Saal 8

09:30 – 11:00

Total joint replacement: Determinants of postoperative recovery

Combined session Danish Orthopaedic Association (DOS) and DGOOC

Chairpersons:

Günther K. (Dresden), Kjaersgaard-Andersen P. (Vejle)

Welcome and introduction
Kjaersgaard-Andersen P. (Vejle)

Impact of using Local Infiltration Analgesics on recovery after total knee replacement
Husted H. (Hvidovre)

Surgical procedure, anaesthesia or rehabilitation: What is the key?
Poulsen T. (Vejle)

"Fast Track" postoperative recovery and rehabilitation - tricks & tips
Husted H. (Hvidovre)

Effects of clinical pathways
Kirschner S. (Dresden), Krummenauer F. (Witten)

Patient-related factors as predictors of postoperative recovery
Stiehler M. (Dresden)

Changing health economics: should joint replacement be done as outpatient-procedure?
Kessler S. (Sindelfingen)

Discussion

Summary and adjourn
Günther K. (Dresden)

11:30 – 13:00 **Limb salvage and limb reconstruction**
Combined Chilean-German meeting

Chairpersons: *Grass R. (Dresden), Besser Mahuzier J. (Concepción)*

To amputate or not?
Uribe Jackson J. (Viña del Mar)

Severe open or closed lower limb fractures: Fixation by ex fix, plate or nail?
Marty A. (Talcahuano)

How to manage fracture dislocations with arterial injury?
Besser Mahuzier J. (Concepción)

How to reconstruct soft tissues in severe open / closed lower limb fractures?
Biewener A. (Dresden)

How to lengthen and realign after severe bony defects and / or malalignments?
Heineck J. (Dresden)

Can exo-endoprosthesis be an alternative?
Aschoff H. (Lübeck)
